-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2138

1. The amendment filed on March 20, 2006 submitting new claims (claims 18-30) drawn to a non-elected invention is non-responsive. These claims are not readable on the elected invention because claims 18-30 do not belong to the elected Group II [See paragraph 2 below].

Applicant should also note that claims 19-30 depend on claim 1 (the non-elected claim).

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of **ONE (1) MONTH** or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 18-30 drawn to a method and an apparatus with a feature of allocating data into a spare area upon detection of a defect on a data storage medium, and a feature of partially re-allocating the data in the spare area into the contiguous free region in the user area if the size of the contiguous free region exceeds or is equal to a determined threshold size, classify in class 714, subclass 723.

Group II, claim(s) 14-17, drawn to a data storage apparatus comprising a data storage medium which being formatted in a predetermined format architecture comprising zones, cylinders and tracks, and user area and a spare area, classified in class 369, subclass 272.

Art Unit: 2138

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

a. Invention I has separate utility such as upon detection of a defect area on a data storage medium, a feature of allocating data into a spare area of the data storage medium and a feature of re-allocating the data in the spare area into the contiguous free region in the user area if the size of the contiguous free region exceeds or is equal to a determined threshold size; these are patentably distinct features not found in invention II;

b. Invention II has separate utility such as formatting a data storage medium into a predetermined format architecture comprising a least one format feature of zones, cylinders and tracks and a user area and a spare area; this is a patentably distinct feature not found in invention I.

Applicant is **again** advised that the reply to this requirement to be complete must include an election of a **single** invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. In order to expedite the prosecution for the subject application, the non-elected claims should be canceled in response to this office action.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (571)272-3831. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.
